48" x 48" x 20"	<b>£899</b>		

Adding the Extension Kit to the box doubles the size of the unit to give extra space for mum and pups. The front panels of the whelping box are used as the front of the Extension. A divider is then used to separate the box and extension. The divider can be taken out at a later stage to provide a large puppy play area.

We can also produce units to your own specific design and size, please contact us direct with your requirements. As all items are individually made, please allow up to 14 days for delivery. Should you require an item sooner than this please contact us direct. Postage and packing dependant on size.
